The FlightWorks Experience

LIMOUSINE SERVICE

CONCIERGE

CATERING

EXECUTIVE CHARTER SERVICE

FlightWorks simplifies your travel challenges. With chartered aircraft and veteran crews exclusively dedicated to you and your schedule, you can relax and concentrate on what's important. Fly direct or schedule stops along the way. Work in privacy, conduct an in-flight strategy session or relax with your family. Large or small jets. Short hops or around the world. Call us 24 hours a day, 7 days a week and experience the FlightWorks difference.

AIRCRAFT MANAGEMENT

Leverage our expertise, industry partnerships and volume discounts to simplify the economics and logistics of jet ownership. Our flexible management programs simplify the complex tasks of aircraft maintenance, operations, crew training, accounting scheduling, cleaning, etc. You gain peace of mind knowing industry experts manage and protect your asset. Plus, you benefit from the savings realized by our negotiated partnerships with fuel, parts and service providers. Participation in our charter services program can further offset expenses.

AIRCRAFT MAINTENANCE

Safety is your top priority. It's ours as well. Planes undergo painstaking safety testing and, our maintenance technicians perform comprehensive safety inspections prior to every flight. Our focus on safety earned us Wyvern recommended and ARG/US Platinum approved status, the highest safety rating in the industry. Recent ISO 9001-2000 certification further demonstrates how seriously we take safety. With our incident- and accident-free safety record, you can be confident that your aircraft meets and exceeds the highest industry maintenance standards.

AVIATION ADVISORY - ACQUISITION & SALES

Buying or selling aircraft is a complex transaction. FlightWorks researches market conditions, aircraft availability, associated costs and maintenance expectations and compiles all documentation to pass title from one entity to another. Through our proprietary travel analysis process, we analyze your specific travel requirements. This enables us to advise and counsel you on appropriate aircraft, suitable alternatives and negotiate your lease, purchase or sale. We handle all pre-purchase/pre-lease inspections to meet FAA safety requirements. Whether you are buying or selling, our goal is to build a long-term, satisfying relationship.
